## DECLARATION

Abet Laminati Spa declares that, based on tests conducted by third party Laboratories according to the Regulation (EU) 10/2011, testing conditions at 24 hours and 40° C, the results obtained do not show simulants migrations which might contaminate foodstuffs in contact with all the typologies of products in the above listed collections.

However, Abet Laminati specify that our product is not specifically intended for continuous and long periods of contact with food, like food packaging, tableware, etc.

Consequently, based on our current state of knowledge and of the results of the a/m tests, there are no detriments in using our a/m products in areas where foodstuff is produced or consumed.
